EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Non-elected claims 36-48, 51, and 52 have been CANCELED without prejudice.

RESPONSE TO ARGUMENTS

Applicant's arguments in the response filed August 24, 2004, pertaining to the effective piston areas of the holding-down piston and die piston (page 2, last paragraph) are convincing; the effective area of the holding-down piston of Ogren is *higher* than the effective area of the die piston, which is contrary to what is being claimed in claim 27. As a result of this relationship, Ogren also fails to teach the limitations recited in claim 49, as convincingly argued by applicant on page 3, lines 5-9, of the response.
